SUMMARY

A highly experienced Senior Full-Stack Developer with a rich decade-long background in software development, aiming to leverage my expertise in remote working technologies at Workwize. Skilled in dynamic startup environments, I am dedicated to delivering high-quality, user-centric software solutions.

SKILLS

- Javascript (ES5, ES6)
- TypeScript
- React
- Next Js
- Vue JS
- jQuery
- CSS
- SASS
- PHP
- Laravel 4
- Laravel 5
- Laravel 7, 8
- Lumen
- Magneto 2 (Backend)
- Python
- Ruby
- Node JS
- Mysql
- Postgres
- SQL server
- Google Big Query
- Amazon Redshift
- Redis
- Elastic Search
- Apache2
- Nginx
- AWS IAM
- AWS ECR
- AWS EC2
- AWS AMI
- AWS ELB
- AWS Autoscaling
- AWS Kubernetes
- AWS RDS
- AWS Api Gateway
- AWS Lambda
- AWS Route 53
- AWS VPS
- AWS S3
- AWS CDN
- AWS ElasticBeanstalk
- JIRA
- Click UP
- Asana
- Hubstaff

PROFESSIONAL EXPERIENCE

Senior Full stack Developer

2022 - present

Accurate Web solution (Remote)

- Developed and maintained web applications using a variety of technologies, including PHP (Laravel, WP), React, Next , and front-end frameworks.
- Collaborated with cross-functional teams to gather requirements and deliver feature-rich applications.
- Implemented responsive and intuitive user interfaces using HTML, CSS, SCSS and React.
- Engineered custom NPM packages for my projects to standardize design and enable component reuse, significantly boosting development efficiency and ensuring consistent UI across applications.
- Designed and optimized databases, ensuring efficient data storage and retrieval.
- Participated in code reviews and provided valuable feedback to enhance code quality.
- Assisted in the deployment and maintenance of web applications on production servers.

Lead Software Engineer

Feb 2022 - Mar 2023

Mestores

- Oversaw the technical architecture, development, and deployment of Mestores' e-commerce platform, a leading entity in Saudi Arabia.
- Utilized React/Next.js, Node.js, Laravel, and Magento 2 for a robust, scalable solution. Managed Docker and Kubernetes for efficient containerization and deployment on AWS.
- Engineered custom extensions, including sophisticated discount modules, enhancing the platform's functionality and user experience.
- Actively collaborated with project managers to define and adhere to project scope and timelines, achieving successful delivery within set deadlines and budget constraints. Implemented Agile methodologies, boosting software development efficiency by 30%.
- Engaged in detailed requirement analysis with business stakeholders, driving the platform's successful implementation.
- Led and mentored a team of 10 developers, incorporating a knowledge-sharing program that enhanced team performance by 20%.
- Conducted extensive R&D to tackle resource challenges, improving software development quality by 25%.
- Demonstrated resilience under pressure, ensuring the platform's timely launch. Managed the entire QA cycle and server administration, ensuring seamless deployment and high operational standards.

Principal Software Engineer

Aug 2017 - Dec 2022

Ilsa Interactive

- Developed and maintained scalable web applications using Node.js, Laravel, and Lumen frameworks, ensuring robust backend solutions.
- Collaborated with cross-functional teams, including designers, product managers, and QA engineers, to gather requirements and deliver high-quality, comprehensive solutions.
- Expertly designed and implemented RESTful APIs using Laravel and Lumen to support front-end functionality and enable seamless data flow. Built responsive and user-friendly front-end interfaces with React.js, optimizing performance across multiple devices and browsers.
- Integrated third-party APIs and services, leveraging Laravel's capabilities, to enhance application functionality and user experience. Optimized database performance with efficient query design, indexing, and caching strategies, utilizing both Laravel and Node.js environments.
- Implemented automated testing and continuous integration processes to ensure code quality and streamline development workflows.
- Conducted thorough code reviews and provided constructive feedback to team members, fostering a culture of collaboration and continuous learning.
- Mentored junior developers, providing guidance and support in their professional growth, with a focus on mastering Laravel and Node.js technologies. Consistently completed projects within allocated timeframes and exceeded client expectations.

Next Bridge

Aug 2014 - Aug 2017

Principal Software Engineer

- Collaborated with the business stakeholders to gather and analyze requirements, resulting in the successful implementation of the application.
- Lead the design and development of complex software systems using various programming languages and platforms, such as Php, Laravel, and Yii.
- Collaborate with cross-functional teams to define project requirements and deliverables, ensuring that they are met on time and within budget.
- Conduct code reviews and provide constructive feedback to improve code quality and maintainability.
- Develop and implement coding standards and guidelines to ensure consistency and best practices across the team.
- Design and implement automated testing frameworks and tools to improve software quality and reduce manual testing efforts.
- Continuously research and evaluate new technologies and frameworks to improve software development processes and systems.
- Provided technical guidance and training to junior developers, resulting in a 15% improvement in their performance.
- Conducted deployment and testing with the QA cycle and managed server management.

Dtech systems

Mar 2013 - Aug 2014

Software Engineer | Team Lead

- Proficient in PHP, Yii, Django, and frameworks for web development.
- Experienced in developing and maintaining multi-store e-commerce websites
- Experienced in integrating payment gateways such as PayPal and Stripe for secure transactions.
- Skilled in optimizing website performance and scalability through SQL queries and caching techniques.
- Developed and implemented automated testing frameworks to improve software quality and reduce manual testing efforts.
- Knowledgeable in user authentication and authorization using frameworks like Laravel and Django.
- Worked with cross-functional teams to identify project requirements and deliverables, ensuring that they were met on time and within budget.
- Strong collaborative skills in working with designers and front-end developers to create visually appealing and user-friendly websites.
- Proficient in conducting code reviews and providing constructive feedback to team members for high-quality code standards.
- Experienced in using agile development methodologies and project management tools like JIRA.

Senior Software Engineer

Mar 2012 - Mar 2013

Rolustech

- Collaborated with the project manager to define project scope and timeline, resulting in the successful delivery of the project within the deadline and budget.
- Mentored junior developers and implemented a knowledge-sharing program, resulting in a 20% improvement in the team's performance.
- Proficient in PHP, CodeIgniter, Sugar CRM, and Sugar CRM 6 (Community and Commercial) Extensions for web development.
- Experienced in developing financial systems with Xero integration and CRM systems.
- Strong understanding of software development life cycle (SDLC) and agile methodologies.
- Experienced in using project management tools like JIRA and Trello.

Next Bridge

Jan 2010 - Mar 2012,

Software Engineer

Construction Management (SASS Product)

- Developed and maintained a construction management SASS product using PHP, Yii1, HTML, CSS, jQuery, and Javascript.
- Collaborated with cross-functional teams to design and implement new features and improvements.
- The optimized codebase for improved performance and scalability.
- Resolved bugs and issues quickly and efficiently.
- Provided technical guidance and support to team members.

Website Music CMS System (PHP, HTML, jQuery)

- Created and launched a website music CMS system using PHP, HTML, CSS, and jQuery.
- Implemented user authentication, music uploading and management, and social media integration.
- Collaborated with designers to ensure a user-friendly interface and seamless user experience.
- Provided ongoing technical support and resolve any bugs or issues that arose.

EDUCATION

BS Information Technology

Mar 2005 - Mar 2009,

Punjab University Lahore
